Education

- **Teerthanker Mahaveer University** Moradabad, India
Bachelor of Computer Applications. July 2022 - June 2025
Courses: Operating Systems, Data Structures, Artificial Intelligence, Machine Learning, Networking & Security, Databases

Skills Summary

- Languages: JavaScript , Java , C , C++,HTML
- Frameworks: Node.js , React.js , Next.js ,Express.js , Tailwind CSS,CSS
- Tools: Git, GitHub, Postman, VS Code, Docker
- Databases: MongoDB , Redis, Pinecone, SQL
- Soft Skills: Collaboration, Adaptability, Problem-Solving, Time Management

Projects

Mini Store App | React.js, Redux Toolkit, JavaScript, Tailwind CSS, RESTful APIs

- Built a responsive e-commerce web app using React and Redux Toolkit to manage product data and cart state from free public APIs.
- Designed reusable components and applied modern UI/UX principles for a smooth shopping experience; planned future integration with Node.js and MongoDB.

Leeva – AI Chatbot |React.js, Redux Toolkit, OpenAI API, JavaScript,

- Developed an AI-powered chatbot named Leeva using the OpenAI API to enable dynamic, real-time conversations in a chat-style interface.
- Focused on frontend integration, state management, and API communication, with roadmap for MERN stack expansion and chat history storage.

SubTracker – Full-Stack Subscription Manager

Tech Stack : MongoDB, Express.js, React.js, Node.js, Redux/Context API, Recharts, Tailwind CSS.

- End-to-End MERN Development: Architected a full-stack subscription manager using MongoDB, Express, React, and Node.js, featuring secure JWT authentication and a responsive Tailwind CSS dashboard.
- Data-Driven Analytics: Integrated Recharts to transform raw expense data into interactive visual insights, providing users with real-time spending breakdowns by category and renewal timelines.

Courses & Certifications

Cloud Infrastructure using AWS – 10-Day Workshop

Organized by College in collaboration with AWS Team

- Gained hands-on experience in AWS Cloud services such as EC2, S3, and IAM.
- Learned fundamentals of cloud infrastructure setup, deployment, and scalability.
- Worked under the guidance of AWS professionals during practical lab sessions.

MERN Stack Development – 6-Month Certification

Sheriyans Coding School

- Completed an in-depth training on MongoDB, Express.js, React.js, and Node.js.
- Built real-world full-stack web applications implementing CRUD operations and API integration.
- Strengthened skills in frontend-backend connectivity and modern web development practices.

Achievements

- Awarded highest marks in Group Discussion (GD) during classroom evaluation for demonstrating strong communication and critical thinking skills
- Secured Runner-up position in the College Volleyball Tournament, showcasing teamwork, collaboration, and sportsmanship.
- Actively participated in various college technical and extracurricular events, contributing to personal growth and team coordination.
